STORIES

I was so happy for the end of travel restrictions, so one weekend, I got into the car with nothing but a change of clothes and a map of

—itsadog.party

the greatest dog convention.

—onion chopper

"Why am I here" I said to myself. I'm actually allergic to dogs, so I ended up needing to

—rick

adopt a cat

—cl

but then realized they were allergic to cats

—pri

Despite this, they owned 10 cats anyways, and just took hella allergy medication (doing irreversible liver damage in the process)

—kemistry

Then COVID happened, so they basically just stuck in a room with 10 cats 24/7, RIP...

—kemistry

THE ONLY WAY IS TO eat it but with
some quality cheese sauce, seafood

—jackie

dungeness crab is still out of the
picture, but oysters are in season; the

Once upon a time there was a dog

—rick

who didnt know that they were a dog

—pri

The cat who didn't know that they were
a dog was searching for love in all the
wrong places

—kemistry

why search for love when you cannot
even find yourself!the cat, or should I
say, catdog, is DEVASTATED

—jackie

Whenever I look inside myself, I used to
see a human being so eager to become
a cat. But now I have a new purpose —
become a catdog!

—cl

I developed a serious craving for
anchovy pizza

—itsadog.party

and decided that it was time to learn
how to make naturally fermented
doughs to aid my digestion.

But unfortunately there was a critical
bucatini shortage this year, because

an inferior pasta shape in every respect.

—itsadog.party

xv3b

When I was eating a rigatoni I noticed something astonishing

—pri

—cl

Once upon a time, there's a group of graduate students who got stuck in a virtual space that they can't get back the reality.

—jackie

They started killing each other

—kemistry

With long swords made out of cotton candy

—pri

we charged downhill toward the menacing windmill

—itsadog.party

yet the earth was still, with a chicken, air chilled.

—onion chopper

And then suddenly, a mysterious object flew into the sky

—rick

THERE GOES THE CATDOG!
